Cuba

Frontend Developer focused on React JS and Next.js, with strong experience in scalable interfaces, interactive animations, and modern architecture. Adept at collaborating with cross-functional teams, leading project phases, and delivering accessible, performance-optimized solutions. Proven experience in backend development with Java (Spring Boot) and CMS integrations, ensuring full-stack understanding with product impact.

EXPERIENCES

Freelancer — Frontend & Fullstack Developer

Palco, SmartBit, Power Gym - February 2022 to March 2023

‣ Developed the corporate website SmartBit using React JS and Spring Boot, achieving a pixel-perfect layout and responsive functionality.

‣ Rebuilt Palco's digital platform with Next.js, adding modular architecture, Framer Motion animations, and improved UX flows.

‣ Created custom WordPress themes for dynamic content sites tailored to specific client needs.

‣ Stack: React JS, Next.js, Java (Spring Boot), Tailwind CSS, WordPress, SQL

BestVision — Fullstack Developer (Part-Time)

BestVision - February 2023 to September 2024

‣ Contributed to banking platforms using Java (Spring Boot) for backend logic and React JS for frontend architecture.

‣ Integrated secure workflows and collaborated with distributed European teams to meet product milestones.

‣ Stack: Java, React JS, OracleDB, RESTful API, Hibernate

Avangenio — Frontend Developer (Middle-Senior, Next.js)

Avangenio - Since May 2023

‣ Led the development of a tourism platform using Next.js, TypeScript, and Material UI, emphasizing performance, accessibility, and scalability.

‣ Collaborated with multidisciplinary teams under agile methodology, implementing refined UI designs and ensuring quality delivery.

‣ Took on Project Leader responsibilities during key phases: task planning, architecture decisions, code reviews, and junior developer guidance.

‣ Integrated CMS systems (Strapi), set up automated CI/CD pipelines (GitHub Actions), and optimized frontend performance.

‣ Stack: Next.js, TypeScript, zustand, Material UI, GitHub Actions, React Form, Zod

EDUCATION

Bachelor in Software Engineering

CIUDAD UNIVERSITARIA JOSÉ ANTONIO ECHEVERRÍA (CUJAE), HAVANA

September 2018 to February 2023

LANGUAGES

Spanish
Native

English
B1

SKILLS

Core Frontend

‣ React JS (Hooks, Context API, Lazy Loading, Suspense)

‣ Next.js (App Router, SSR, SSG, API Routes, Middleware)

‣ JavaScript (ES6+) & TypeScript

‣ Advanced HTML5 & CSS3

‣ Responsive Design & Cross-Browser Compatibility

‣ State Management: Redux Toolkit, Zustand, Context

‣ Routing: React Router / Next Router

UI/UX & Animation

‣ Tailwind CSS, Material UI, Chakra UI

‣ UX/UI Optimization: Lighthouse, Hotjar, A/B testing

‣ Advanced Interactions: GSAP, Framer Motion

Integrations & Lightweight Backend

‣ Next.js API Routes / Express JS

‣ Headless CMS: Strapi, Sanity

‣ Databases: PostgreSQL, Prisma, MongoDB

‣ Payment/Auth: Stripe, Auth0, Firebase, Supabase

‣ Java (Spring Boot): RESTful APIs, ORM (Hibernate), PostgreSQL, OracleDB

Dev Tools / Workflow

‣ Git + GitHub (PR workflow, Code Reviews)

‣ CI/CD: GitHub Actions, Vercel, Netlify

‣ ESLint, Prettier (formatting & linting)

‣ Browser DevTools for debugging and performance
